

# 6A

# API 6A Wellhead Equipment

WCP is a supplier and manufacturer of the full range of API 6A equipment. With vast domestic and foreign sources along with WCP branded components, machined in our Houston area facility, we can satisfy your equipment and budget requirements. We also excel in the used market. Our in-house machining and welding capabilities allow us to provide industry leading turn-around times. We can change bowl profiles, repair ring grooves and seal bore surfaces, change casing size preps, add bases or outlets, and even update some obsolete equipment to more modern configurations.

## NEW

## REMANUFACTURED

## CUSTOM MACHINED
